Bella Perfume Crystal Bottle

Amorosa Bella is an elegant, sensual perfume. Seductive jasmine floral and wild sweet orange are infused with spicy notes and the dark warmth of blonde tabac. This musky, rich fragrance has a penetrating quality that glows with an inner light.

Scents unlock emotions. They ground us and generate a sense of pleasure.

Over many years, legendary natural perfumier, Mandy Aftel has sourced a collection of natural scents, many of them so rare they are no longer found in the marketplace. Aftel claims, “Amorosa Bella perfume is one of the most *sensual* natural fragrances I have very created.”

Unlike synthetic perfumes, any truly natural fragrance will change on the skin, uniquely responding to each person’s body chemistry in a slightly different way.

Delight your senses with Amorosa Bella’s new natural fragrance.

Amorosa Bella perfume comes to you in an exquisite French crystal bottle.

Refill your heirloom crystal bottle with Amorosa Bella Perfume by ordering only the refill, dropper bottle.

Amorosa Bella Luxury Pure Soy Candles

Made from 100% pure soy oil, Amorosa Bella's exclusive candles burn at a very low melting point and contain no dyes. By keeping the wick trimmed short while lit, the candles burn virtually smoke-free.

For a soothingly luscious massage, gently blow out the flame and pour a small amount of pure soy oil on your bare skin. Begin soothing massage strokes and as your hands glide over the skin the warmth of the oil softly penetrates into the muscles.

Why soy?

- Clean burning
- Environmental safe; biodegradable and water-soluble
- Non-toxic and lead free
- Longer lasting
- Emollient to your skin
- Renewable resource; supports agriculture and economic growth

Available in natural fragrances that awaken your senses Heavenly Plumaria, Lemongrass, Tropical Rain and Déjà vu.
